Dress Code

We don't have an official dress code, but we encourage you to dress in a manner that you'd be comfortable interacting with employers. Students will often dress in smart casual attire for general conference programming and business casual attire for the career fair. Suggested attire for the Friday evening event is smart casual (please note there probably won't be time to change on Friday), and queer cocktail for Saturday. If you're worried about what to wear, please use the photos in this deck for inspiration. We are not strict on dress code and we often so a wide variety of styles.
